SWISS NATIONAL SCIENCE FOUNDATION

Swiss Programme for Research
on Global Issues for Development

General objectives of the r4d Programme:

- To **generate scientific knowledge** and research-based solutions for reducing poverty and global risks in African, Asian and Latin American countries.
- To **provide national and international stakeholders with methods and options** for finding integrated, holistic approaches to solving problems linked to issues of global importance.
- To **enhance scientific skills and know-how** in dealing with the complexity of global problems for the benefit of societies in African, Asian and Latin American countries
